

Primary Five English – Unseen Dictation (125 words)

If you want to calculate your mark for this unseen dictation, remember that any punctuation mistake is one mark and spelling mistakes are three marks each.

Unusual facts about our bodies

The human body is a complex system that even doctors do not understand completely.

Here are some unusual facts about our bodies. First, the width of our armspan stretched out is the length of our body. Second, it is not possible to tickle yourself. Did you know that your ears produce more earwax when you are scared? Do you like to sleep in cold rooms? If you do, the colder the room, the higher chance you will have a bad dream. Our bones are stronger than some types of steel. Also, the brain cannot feel pain. Finally, every day we lose between 60-100 / sixty to one hundred strands of hair.

Our bodies are amazing creations, so we really need to take care of ourselves.
